PREFACE

By its very nature a supplementary is not something new but rather an adjunct or continuation of the parent volume. Supplements were issued from time to time to the Gazetteer volumes published in the old series. The object of issuing such Supplementaries to the District Gazetteers is to update the statistical data contained in the parent volume.

The revised edition of the Varanasi District Gazetteer by Smt. E.B. Joshi, M.A., T. Dip. (London), I.A.S., was published in 1965 by the Gazetteers Department. The present volume is intended to supplement the information contained in the revised edition by more recent statistics. Every attempt has been made to bring the statistical data as up-to-date as possible.

My thanks are due to Sri Rudra Shekhar Misra, Editor and Sarvsri Chandra Prabhakar Sharma and Sunder Lal, Team Leaders among the Compilation Officers of whom Sri Sunder Lal has since retired, for their valuable assistance in this work. I am also thankful to the other staff members of the office for their association in the preparation of this volume.

I will be failing in my duty if I do not express my thanks to Dr P. N. Chopra, M.A., Ph. D., Editor (retd.), Central Gazetteers Unit, Ministry of Education, Government of India, New Delhi, as also the editorial staff of the Unit for their effective role in the planning and co-ordinating the work of preparation of the Supplementaries. The Unit scrutinised the Tables of this Supplementary with great care and made several helpful suggestions.

The information and statistical data contained in the Supplement is based on the Census publications for the years 1961 and 1971 and the various official records maintained at the office of the collector and district magistrate and the district offices of numerous departments of the Central and State governments to whom my sincere thanks are due.

Note :

Varanasi district was formerly under the jurisdiction of Allahabad region, and functioned under the regional transport authority, Allahabad. In 1971, Varanasi was formed into a separate transport region.

Total number of routes under the private transport sector was 58 at the time of formation of this region in the year 1971. By 1979, the number of routes increased to 102 and the total length of the routes covered by the private transport operators increased from 2,972 km. in 1971 to 5,134 km. in 1979. Taxi cabs also ply in the whole region, to facilitate the tourists visiting the district. A number of travel agencies are also plying, air-conditioned taxicabs and luxury buses, most of which are under contract with the U. P. S. R. T. C., Varanasi.

MEDICAL FACILITIES

There were 83 allopathic institutions in the district in 1977, comprising primary health centres, dispensaries and hospitals. Indoor treatment is provided in a large number of institutions and a total number of 2,877 beds are available in the district.

Medical and health services have been extended in a big way to the rural areas by the opening of the primary health centres in all the tahsils of the district. The following is the list of primary health centres in the district :

Administrative set up

In July, 1973, the department of medical and public health was reorganised, abolishing the posts of the civil surgeon and the district medical officer of health. A chief medical officer has been appointed, who heads the entire medical, public health and family planning set-ups in the district. The three deputy chief medical officer's assist the chief to supervise the working of hospitals, employees state insurance scheme, dispensaries, infectious diseases hospitals and school health dispensaries. Each deputy chief medical officer looks after his fixed area of jurisdiction in the district. They are assisted by a team of doctors, compounders, nurses etc., posted in different medical institutions.

As many as 12 of the 83 medical institutions are run by private bodies, and a total of 1,341 beds are available in these institutions, which form about 46 percent of the total number of beds available in the district. Each institution has its own team of doctors, nurses, compounders, etc.

In the year 1978, a Community Health Scheme was introduced in the rural areas of the district. As many as 2,341 health visitors have been appointed, and each official is trained to render first-aid and preliminary medical treatment. Each health visitor is provided with a medical-kit containing medicines, bandages, etc. The visitor also reports about the incidence of epidemics, if any, to the respective primary health centre.

There are also homoeopathic, Ayurvedic and Unani dispensaries in the district.

SANITATION AND PUBLIC HEALTH

The chief medical officer exercises control and supervision over all the health programmes, primary health centres, rural dispensaries. Besides, he is also responsible for the collection of intelligence about epidemics, checking of food and drug adulteration and also for providing necessary assistance during the flood and outbreak of epidemics. For his assistance there are three deputy chief medical officers, one assistant medical officer at the district headquarters and one to two medical officers in each primary health centre.

For public health and sanitation work every local body has its own team of medical officers sanitary inspectors, vaccinators, etc. Besides each Gaon Sabha is responsible for village sanitation work. The services of sanitary inspectors are available to them for technical help and guidance. The *pradhans* (village headmen) report outbreaks of epidemics to the primary health centres for initiating preventive and curative measures.

FAMILY PLANNING AND CHILD WELFARE

The chief medical officer through the three deputy chief medical officers exercise complete supervision over the maternity and child welfare, family planning and nutrition programmes. The deputy chiefs assisted by a team of medical officers, extension educators, midwives and *dais* (untrained midwives) and health visitors.

In order to arrest the abnormal growth of population family planning programme was introduced in the district in the closing years of the fifties of this century. In 1965 concrete measures were taken to popularise the concept of a small family through

documentary films, placards, posters and personal contacts. The chief medical officer is in charge of the family welfare programme in the district, which is implemented through the family welfare centres attached to each primary health centre. There are 22 family welfare centres in the district, and each centre supervises the work of 3 family welfare sub-centres.

The following statement gives the main achievements of family planning work in the district :

ERADICATION OF MALARIA

The national malaria eradication programme was introduced in the district in 1958, with the spraying of D. D. T. on all human dwellings and cattle sheds. D.D.T. was sprayed twice between May

and October. This measure continued for three to four years. In the next phase blood-smears were collected from every household and subjected to microscopic examination to ascertain the presence of malaria. This phase also continued for three to four years. Proper medical care was provided with radical treatment.

At the district level an anti-malaria officer assisted by four senior malaria inspectors and four malaria inspectors are engaged in the eradication of malaria. Additional field workers are appointed whenever spraying operations commence. A number of house visitors are also engaged for collecting blood-smears. The staff of the health department posted at the district headquarters and at the primary health centres also looks after this work. A senior laboratory technician posted at Varanasi examines the blood-smears collected from different regions.

MEASURES TO COMBAT SMALLPOX

The national smallpox eradication scheme is in vogue in the district since 1962. Before the promulgation of a new administrative set-up in 1973, an assistant superintendent of vaccinations, posted at Varanasi, assisted by a team of vaccinators was responsible for the control of smallpox. He worked under the supervision of the district medical officer of health.

In the first two years of the scheme, efforts were made to vaccinate the entire population. The phase was known as 'attack phase'. As many as 132 vaccinators, and 50 others were employed at this stage.

At present the chief medical officer is incharge of the scheme, who is assisted by three deputy chief medical officers and a team of doctors, sanitary inspectors and vaccinators. The municipal corporation, Varanasi has a medical officer who is assisted by 25 vaccinators. One vaccinator is posted in each of the local bodies at Bhadohi, Ramnagar and Mughalsarai. As a result of ceaseless efforts to vaccinate the people, the International Commission on smallpox declared the district free from smallpox epidemic in 1977.

PROHIBITION

The government launched the scheme of prohibition in the State in 1978. Under this scheme many districts of the State were declared 'dry'. In this district prohibition was imposed on April 1, 1978. By a government notification dated March 30, 1978, the sale of liquor and other intoxicants was completely banned in the district. Later the government, by a notification of September 14, 1978, also prohibited the sale of 19 medicines containing alcohol. The excise commissioner and his subordinate officials looked after the implementation of government notifications. The maximum penalty for the violation of prohibition was fine of Rs 5,000 and three years imprisonment and the minimum was fine of Rs 500 and six month's imprisonment.

Subsequently, the government revised its policy regarding prohibition and it was lifted in most of the district. Though the district ceased to be 'dry' area since September 1, 1980, the efforts of the social workers have continued to make the people conscious of evils attached with the use of liquor and other intoxicants.

PUBLIC LIFE AND VOLUNTARY SOCIAL SERVICE ORGANISATIONS

VIDHAN SABHA LEGISLATIVE ASSEMBLY

For the purpose of general elections of 1967, the district of Varanasi was divided into 13 constituencies for electing 11 members from general seats and 2 from seats reserved for the members of the Scheduled Castes. The constituencies were Dhanapur, Chandauli, Chakia, Mughalsarai, Varanasi Cantonment, Varanasi North, Varanasi South, Araziline, Chiragaon, Kolasla, Aurai, Gyanpur and Bhadohi. Of these the constituencies of Chakia and Bhadohi were reserved for the members of the Scheduled Castes. As many as 80 candidates contested the elections, of whom 13 each belonged to the Bhartiya Jan Sangh and the Congress, 7 each to the Praja Socialist and the Samyukta Socialist parties, 3 each to the Communist, Communist (Marxist) and the Republican Parties, 1 to the Swatantra parties and 30 were independents. Of the 13 seats, 4 seats each were won by the Congress and the Samyukta Socialist party, 3 by the Bhartiya Jan Sangh and 2 by the Communist party.

The following statement shows the number of seats contested and won and the total votes secured by each political party and independents in the assembly constituencies in the general elections of 1967 :

TABLE I (a)

Political party/ Independents	Contestants	Seats won	Valid votes polled
Bhartiya Jan Sangh	13	3	1,46,522

For the mid-term elections of 1969, there was no change in the number of assembly seats allotted to the district and the number of constituencies. The number of constituencies remained 13 as before viz., Dhanapur, Chandauli, Chakia, Mughalsarai, Varanasi Cantonment, Varanasi North, Varanasi South, Araziline, Chirgaon, Kolasla, Aurai, Gyanpur and Bhadohi. The constituencies of Chakia and Bhadohi were reserved for the members of the Scheduled Castes. As many as 103 candidates contested the elections, of whom 13 each belonged to the Bhartiya Jan Sangh, the Bhartiya Kranti Dal and the Congress, 11 to the Samyukta Socialist party, 9 to the Republican party, 5 to the Praja Socialist party, 4 to the Swatantra party, 3 each to the Communist (Marxist) and the Mazdoor Parishad parties 1 each to the Proutist Block, Ram Rajya Parishad and the Socialist party and 22 were independents candidates.

The Vidhan Sabha constituted after the general elections, was dissolved on February 25, 1968, due to a large number of defections among the members which forced the government to submit its resignation. The State was placed under the President's rule and mid-term poll was held in 1969.

The Congress won 8 seats, and of the remaining 5, 3 were won by the Bhartiya Kranti Dal and 2 by the Bhartiya Jan Sangh.

The following statement shows the number of seats contested and won and the total votes secured by each political party and independents in the assembly constituencies in the mid-term general elections of 1969:

After the assembly elections of 1974 the Congress led the State until a political upheaval rocked the party, leading to the resignation of the Congress ministry in November 1975, followed by the President's rule. The President's rule came to an end in January 1976, when the Congress was again formed in the State. The dismal performance of the Congress in 1977 general elections to Lok Sabha heralded emergence of the Janta Party in power at the centre paving the way for the dissolution of State assembly in May, 1977. The mid-term poll was held shortly after. This election was contested mainly between two parties—the Indian National Congress and the newly emerged Janta party. For the elections of 1977 the constituencies were 14 as in 1974, 12 general seats and 2 seats reserved for the members of the Scheduled Castes. As many as 116 candidates contested the elections of whom 14 were from the Janta party, 13 from the congress party, 7 from the Shoshit Samaj Dal, 2 from the Communist (Marxist) party, 1 from the Communist party and 79 were independent candidates. The Janta party won 12 seats, 1 each went to the Communist party and the Congress. The following statement shows the number of seats contested and won and the total valid votes secured by each political party and the independents in the assembly constituencies in the general elections of 1977 :
